

# Volkowitsch Open

100% OF ALL PROCEEDS GO TO

You're invited to the 8th Annual Volkowitsch Golf Open! The inspirational story behind this event began in 2003 when Melissa Balkowitsch was diagnosed with breast cancer. Missy underwent surgery and years of treatment during her cancer battle. Watching someone you love battle this disease on a daily basis leaves you feeling helpless. This golf tournament is our way to help others with their battle with breast cancer; to let them know they are not alone and we will do whatever it takes to help them overcome this terrible disease.
